Aloha!

Moving to Hawaii was the most exciting decision of my life! I re-located from California to the Big Island in October of 2005, purchased an undeveloped lot and built a house and a park-like estate. As an owner-builder I have experience starting from absolute scratch. With nothing more than a vision and hard work I created my own paradise.

Prior to my career in real estate I worked as an accounting analyst for a global telecommunications company for 15 years. I chose to become a real estate agent so that I may share my experience and help other people to realize their dream of home ownership on the Big Island. It would be my pleasure to help you find your dream.

The Big Island of Hawaii offers a variety of climates and environments. If you are new to the island I can help you make the best choice of location to suit your needs and your budget. For sellers, our office takes full advantage of state of the art analytic tools to get you the best price for your property. Let me put my expertise to work for you!
